

The FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections. Indiana's Telephone Privacy law is a welcome relief to the annoying telemarketing calls we receive at home.

I used to hate hearing the phone ring because I always knew it was some telemarketing firm. I DO NOT want to receive calls like that! They are annoying and some can get very "pushy". I don't want to have to deal with that in the privacy of my home.

I am strongly opposed to any proceeding that would change Indiana's Telephone Privacy law!!
